Layout

- You can see many buttons and icons on the **Dashboard**.

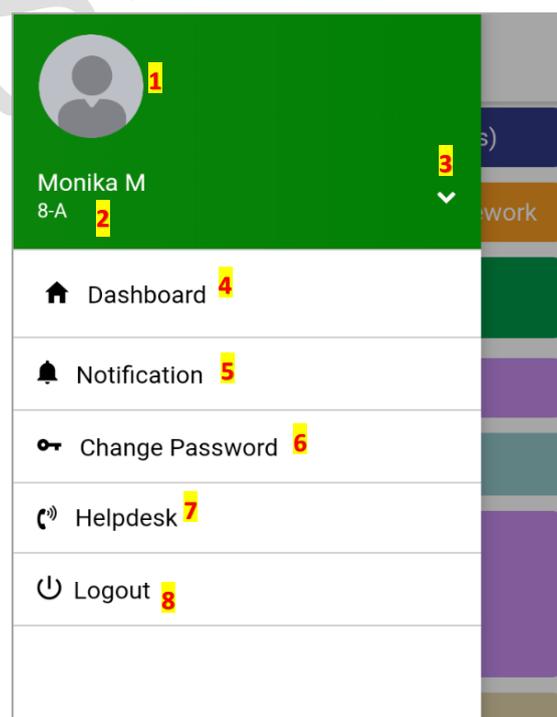

- 1. Menu Button** – This is the first button on the dashboard. By clicking on this icon, you will reach the menu page. *The detailed features of menu have been explained separately.*
- 2. School Logo** – Next to the menu icon you will see your school logo.
- 3. Total Posts** – Below this button all the posts made by subject teachers will be available. The posts can be filtered by subjects.
- 4. Unread Posts** – Under this tab, you will see all the posts that are still unread. The posts can be filtered by subjects. Once you will read a post it will disappear from here and the same will be seen in total posts tab.
- 5. Total Homework** – Under this tab, you will find all the homework assigned to you by your subject teachers. The posts can be filtered by subjects.

6. **Unread Homework** – All the homework that is pending will be listed under this tab. The posts can be filtered by subjects. Once you read a homework post, it will disappear from here and the same will be seen in total homework tab.
7. **Total Assessments** – Here, you can see all the assessments assigned to you by your subject teachers. These assessments can be filtered by subjects.
8. **Pending Assessments** – All pending assessments (*which are yet to be attempted by you*) will be listed here. The pending assessments can be filtered by subjects.
9. **Re-Test** – The assessments assigned to you for re-test will be listed here. You can click on an assessment to attempt it.
10. **Classboard** – In this tab you will get all posts, circulars and notifications issued by your class teacher. These posts show class calendar, various notices, reminders, pictures etc.
11. **Subjects** – All subjects that you study in class will be listed here. You can click on each subject to view posts made by your subject teachers on different chapters/ topics for that subject.

Menu Button

- Upon clicking the **Menu Button**, you will be able to see many more features that are available in the application.

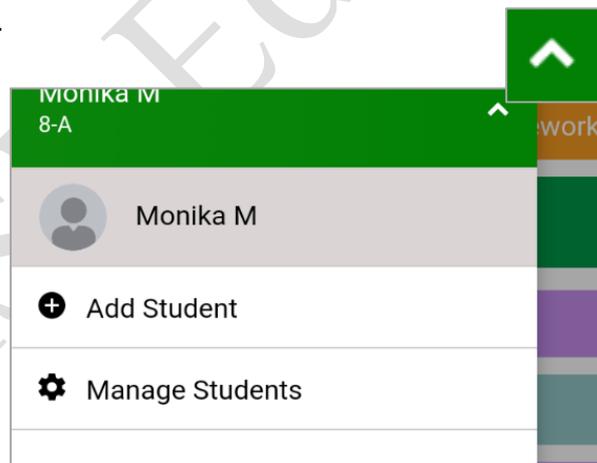

1. **Profile Icon** – You will be able to see your personal information after clicking on this icon. *Please contact your school admin if you want to update your details like contact number and email address.*

demomonika	
Username	demomonika
Class	8-A
UR Code	J23Z4I
Student ID	MONIKAM
Email	crisp.jain@ra@gmail.com
Phone	9871 3722

2. **Student Details** – Your name and Class-section will be displayed here. *Please contact your school admin in case your name and class are incorrect.*
3. **Managing Users** – You can click on this  button to find options to Add other Students in the application, to switch between multiple users and Manage Students (added users can be removed from here).

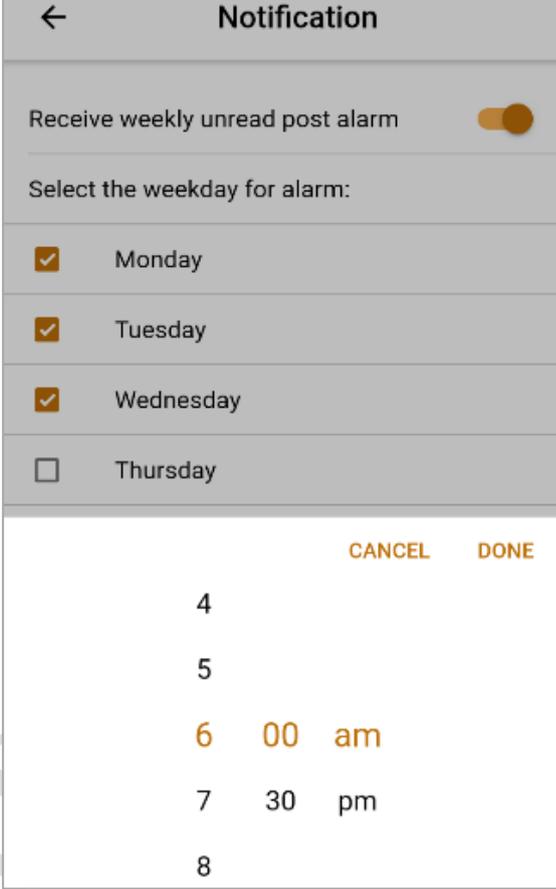

- 1) **Add Student** – To add students (up to 3) in the application, click on the **Add Student** button, enter student username and password and click on **LOGIN**. Once student is added, you can easily switch between users by clicking on the name.
 - 2) **Manage Students** – This button allows you to remove other users added on the application. Click on manage students > click on the **REMOVE** button available in front of the user name and confirm removal. User will be removed from the application. Click on this  button again to access remaining features of menu panel.
4. **Dashboard** – You can click on this button to go back to your dashboard.

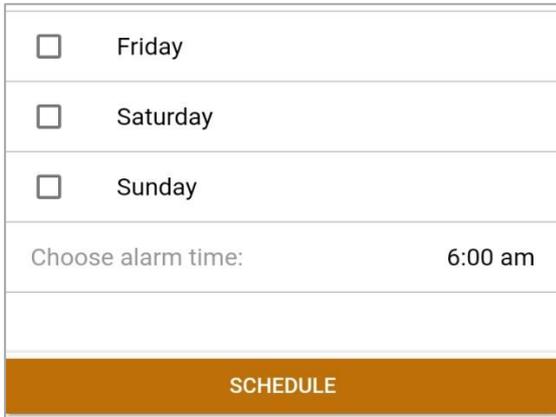

5. **Notification** – This button allows you to schedule weekly unread post alarm on a desired day and time.

1) By default, this is disabled. Slide this  button to turn on the notification, select desired day by ticking on the check box. You can select multiple days too.

2) Choose Alarm time – Select Alarm time and click on **DONE**.

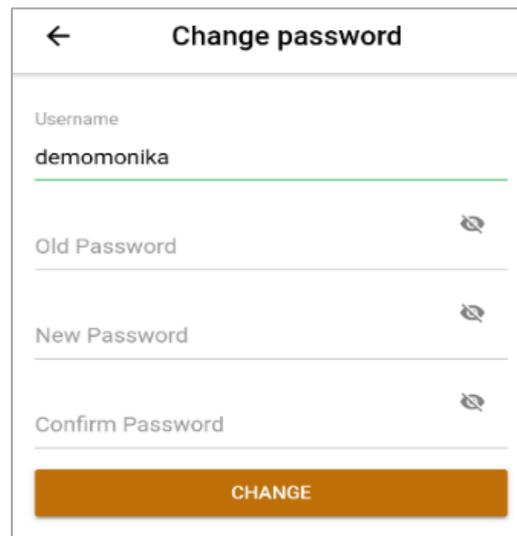

3) Click on **SCHEDULE** button after selecting desired day/s and time. You will see the success displayed on the bottom of the screen.

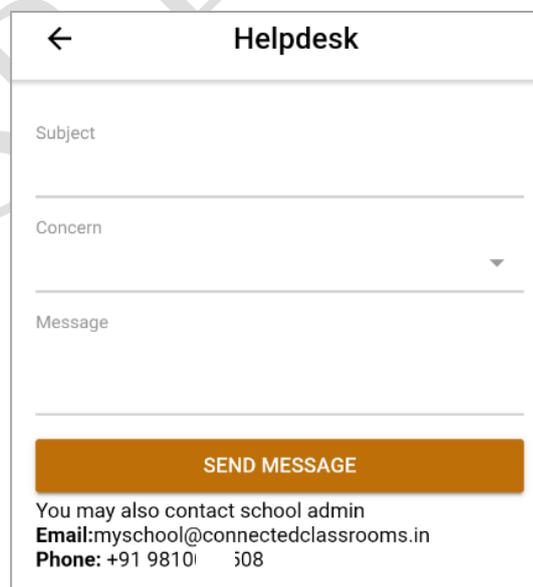

6. **Change Password** – Click here in case you want to change your password. To do so, you need to write your old password > write your new password > confirm new password and click on **CHANGE**. Your new password will be updated. You need to use the same while login again on the web or in the application.

The screenshot shows a mobile application interface for changing a password. At the top, there is a back arrow and the title "Change password". Below the title, there are four input fields: "Username" with the value "demomonika", "Old Password", "New Password", and "Confirm Password". Each password field has a small eye icon to toggle visibility. At the bottom of the form is a large orange button labeled "CHANGE".

7. **Helpdesk** – You can send message to your school admin by clicking on this button. Write subject of your message > select concern > write full message in the message box and click on **SEND MESSAGE**. Your message will be sent to your school admin. *You can also contact to your school admin using the contact details mentioned below this button.*

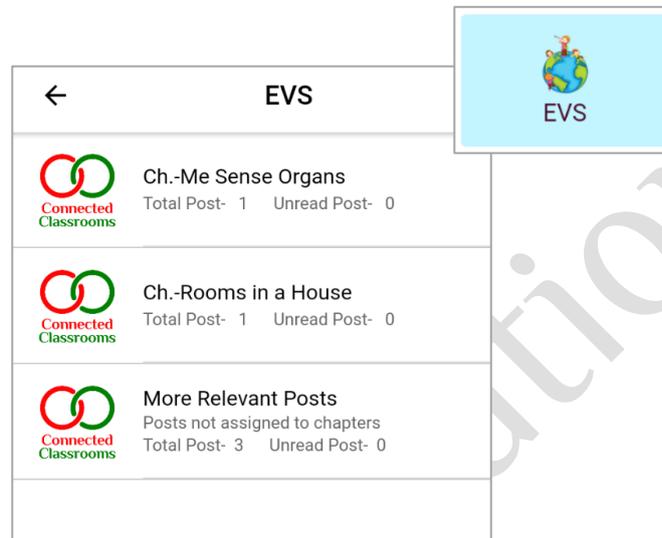

The screenshot shows a mobile application interface for the helpdesk. At the top, there is a back arrow and the title "Helpdesk". Below the title, there are three input fields: "Subject", "Concern" (with a dropdown arrow), and "Message". At the bottom of the form is a large orange button labeled "SEND MESSAGE". Below the button, there is contact information for the school admin: "You may also contact school admin", "Email:myschool@connectedclassrooms.in", and "Phone: +91 98101 508".

8. **Logout** – Once you click on this button, all the users will get logged out from the application. Click on  Manage Students (available under this  button), in case you want to remove other users.

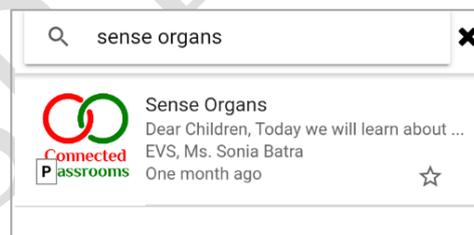

Subject Icons

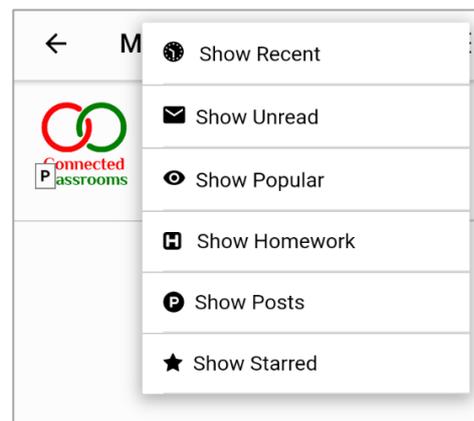

- Click on the **subject icon** to find all the posts related to that subject. After clicking on the subject icon, you will be able to see **all the chapters** of that subject (*in which teacher has made posts*) and **More Relevant Posts**.

- Click on the **Chapter Name** to see all the posts made by your teacher in that chapter. You can search  for a post by title/ topic. Click on **X** button to go back to chapter.

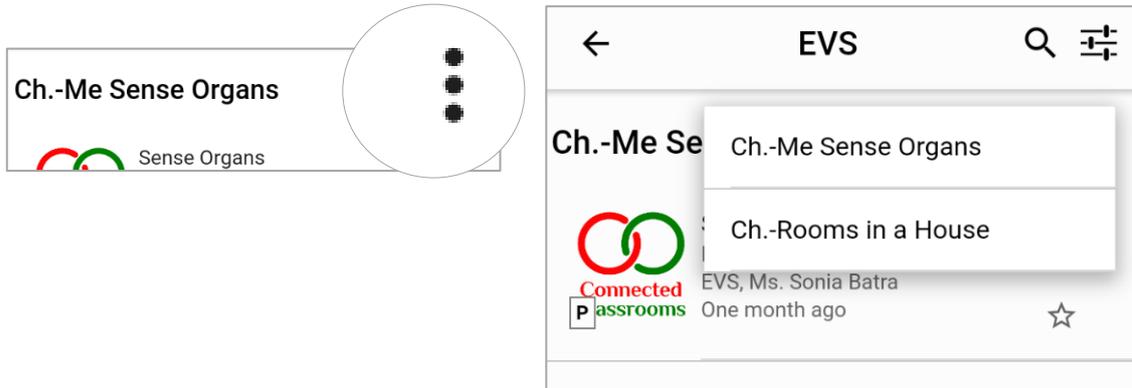

- The posts can be filtered  by **recent, unread, popular, homework, posts** and **starred**.

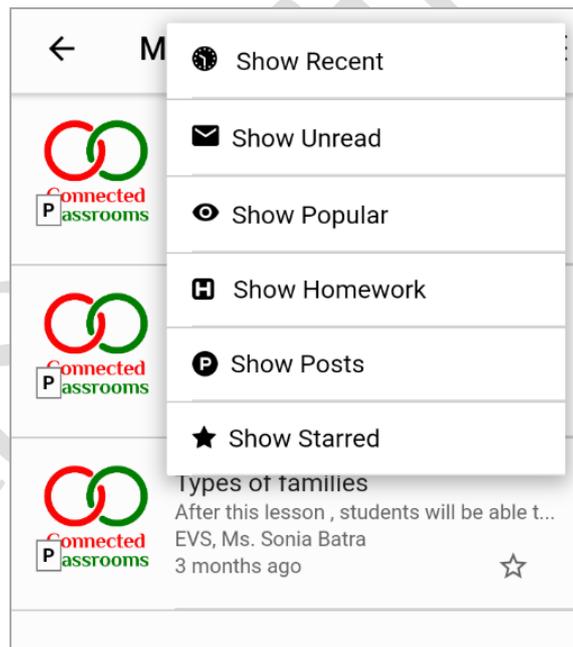

- You can easily switch between chapters from here by clicking on the **three dots**  in front of the chapter name.

- Click on **More Relevant Posts** to find other important posts on different topics for that subject. You can use search  and filter  options (as you have seen above for chapters) here too.

Learning from a Post

- Click on the post you want to read. The title will appear in the first line. You will see subject name and teacher's name below the title.
- Below this you will see a Brief Summary of the post.
- Next, you will get the Main Content/ Description (*explanation and examples of the topic*) of the post.
- At the bottom, you will be able to see all the media files attached to the post. Click on the media file to view the same.
- Rotate your phone/ tablet in landscape mode to view full screen video while watching. Make sure screen rotation mode of your phone/ tablet is on.

Fertilization in Flowering Plants ☆
In Science, By Anjali Sharma, 7 months ago

Brief Summary
This lesson will guide you to understand the structure of a flower, pollination and the terms like double fertilisation and triple fusion.

Main Content / Description
Dear Students,
In this lesson we understand the following topics:

1. Structure of a flower
2. Pollination
3. Double pollination

1. Structure of a Flower
Sexual reproduction in flowering plants centers on the flower. It has following basic parts:

- Sepal (calyx)
- Petal (corolla)
- Stamen (anther and filaments)
- Carpels (stigma, style and ovary)

2. Pollination -
It is the process of transferring pollen to stigma, ovule, flowers to allow fertilization. There are two types of pollination:

- Cross-pollination
- Self-pollination

3. Double pollination –
It is the process when pollen grains transferred to the stigma and formed a pollen tube.

Attempting Assessments

- Find and open the **Assessment** which you want to attempt. Read all the instructions given by your teacher then click on the **ATTEMPT NOW** button to attempt it.
- In case your teacher has assigned a time-based assessment, you can see timer while attempting the same. Always take care of time while attempting time-based assessments.

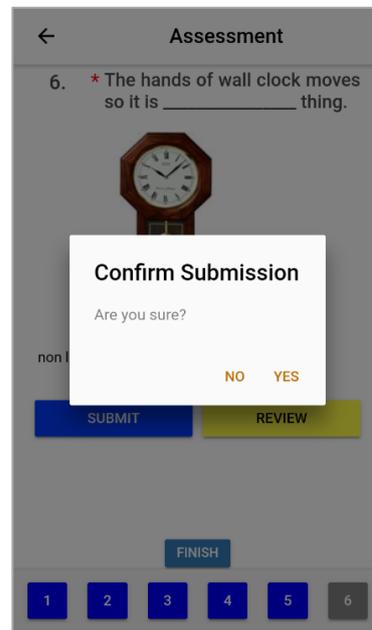

- You will see two options **Submit** and **Review** for each question while attempting an assessment.
- When you click on **Submit** button after selecting/ writing correct answer, the question number gets highlighted in blue. You cannot modify/ change answer after submitting.
- In case you are not sure of your answer and want to think again, click on **Review** button after selecting/ writing answer and move to the next question. The question number of the question under review will get highlighted in Yellow. You can come back to that question anytime by clicking on the question number, change/ update the answer and submit it.

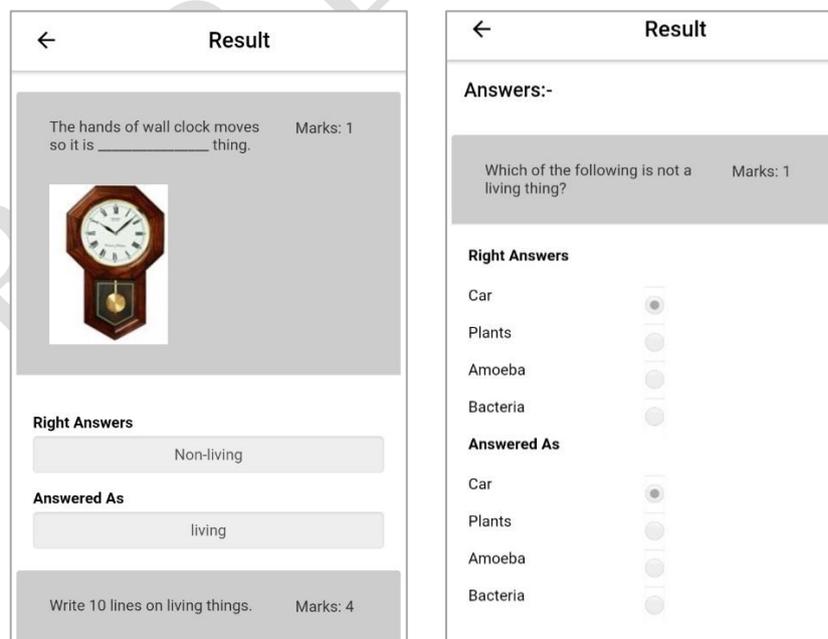

- Answer all the questions. You will see **FINISH** button after attempting the last question of the assessment. Click on **FINISH** button, you will get a confirmation prompt. If you are ready then click on **YES** to submit. (**Note:** You can not finish the assessment without attempting all the mandatory * questions.)

- Your assessment will be submitted. You can go to **Total Assessments** tab to check answers of the assessment, once it will be published by your teacher.

- **Attempting Retest** – In case your teacher has assigned you an assessment for retest, you can click on **Retest** tab available on your dashboard and follow the same process of attempting an assessment.
